Assignment 2: The pyramid

General instructions:

- Make your code in a python file (.py)
- Rename it with your ID, name and surname (in Latin letters), points will be removed if the rule is not respected.
- Upload it on this link: https://www.dropbox.com/request/dNfHaY8TuYirVB32ERpr

Deadline:

- 02/03/2023 at 23:59:59
- Delayed submission allowed until 05/03/2022 at 23:59:59 with score reduction (-1 day per late day)
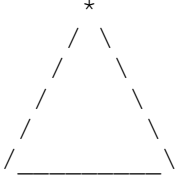

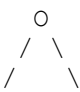

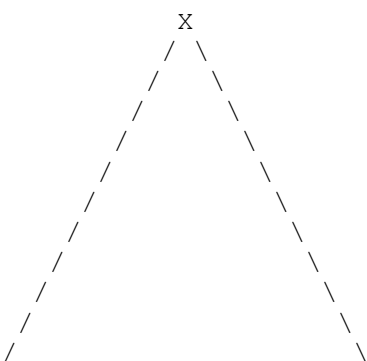

Coding instruction:

Ask for the user 2 inputs:

- The height of the pyramid
- The character used for the top of the pyramid.

Print the pyramid according to the two inputs.

Tests information on next page =>
